SUMMARY

I build n8n workflows, GoHighLevel CRM automation, AI chatbots and API integrations for small-business operations. I handle mixed Bisaya, Tagalog and English conversations, connect tools that don't integrate natively, and add safeguards for when AI output goes wrong.

SKILLS

Automation: n8n, webhooks, scheduled workflows, conditional routing, error notifications

CRM: GoHighLevel contacts, tags, pipelines, opportunities, calendars, email follow-up, API integration

AI: OpenAI API, AI agents, classification, structured output, prompt engineering

Integrations: REST APIs, JSON, Facebook Graph API, Messenger Platform, Google Calendar and Sheets, Telegram

Web development: JavaScript, TypeScript, Node.js, Next.js, MongoDB, Supabase, AI-assisted development with Claude Code

PROJECTS

AI Comment-to-Booking Automation, J&J Apartelle

n8n, OpenAI, Facebook Graph API, Messenger, Google Calendar, Telegram

Classifies Bisaya and Taglish Facebook comments into booking, review or other, and routes booking questions to a Messenger assistant that checks availability, blocks dates and alerts the owner.

Messenger to GoHighLevel Lead Capture, BBM Bookkeeping Services

n8n, GoHighLevel, OpenAI, Messenger

AI assistant that answers FAQs, collects lead details and shares a booking link, with a verification step that blocks invented details before contacts are saved to GoHighLevel.

J&J Apartelle Management System

Node.js, Express, MongoDB

Web app for bookings, guests, availability, income, expenses and reports for a 4-unit apartelle.

Payroll Management App, Colorado General Services (in development)

Next.js, TypeScript, Supabase, Vitest

Tested gross-to-net payroll engine for Philippine wage and contribution rules, with PDF payslip generation.

Bookkeeping App, BBM Bookkeeping Services

Node.js, MongoDB; newer version in Next.js and Supabase

Clients, invoices, payments, expenses, profit and loss dashboard and PDF invoices.

EDUCATION

BS Electronics Engineering, Camiguin Polytechnic State College, 2014

LANGUAGES

English (Fluent), Filipino (Native), Cebuano/Bisaya (Native)
